

JULY 12TH CELEBRATION CARRIED OUT IN ULSTER

Irish Unionist Leader Sees Campaign
of Anti-British Feeling in
America.

SIR EDWARD CARSON SPEAKER

Declares Whole Future of World D-
pends on Feeling Between United
States and His Party—Sir Horace
Plunkett Is Denounced.

(By Associated Press.)
BELFAST, IRELAND, July 12.—The
12th of July celebrations were carried
out today in Ulster on a large scale.
Sir Edward Carson, the Irish union-
ist leader, speaking at the Orange
demonstration at Hollywood, Belfast,
said:

"There is a campaign going on in
America at the present moment fos-
tered by the Catholic Church, which
will soon be joined by the Germans,
and their funds in order to create a
great anti-British feeling."
"Heaven knows I want good feel-
ing between America and this coun-
try. I believe the whole future of
the world probably depends upon the
relations between the United States
of America and ourselves, but I am not
going to submit to this kind of cam-
paign, whether for friendship or any
other purpose."

"I seriously say to America today—
you attend to your own affairs; we
will attend to ours. You look after
your own questions at home, we will
look after ours. We will break no
interference in our own affairs by any
country, however powerful. It is not
that we want the great war of inde-
pendence which has just been con-
cluded. What right has an American
mission to this country? It is not
come here in a breach of hospitality of
one nation towards another—to at-
tempt to stir up strife in men in
which they were not connected."
"The encouragement those men gave
the Sinn Fein party has created for
the British government far more dif-
ficulties than they ever had before. I
believe that the visit of these men
and the encouragement they gave to
lawlessness, which is being preached
throughout the land, has added greatly
to the campaign of assassination of in-
nocent policemen who were only doing
their duty to their King and country
and who were foully murdered on the
roadside, with men looking on who had
not the courage to arrest the assassins
or give such information as would
bring them to justice."
Sir Edward Carson denounced Sir
Horace Plunkett, who, he said, was
elected chairman of the Irish con-
ference because he was "thoroughly hated
and distrusted by both sides," and
added the speaker, "a nice mess he
made of it."

REPUBLICAN PLAN IS TO CUT LEAGUE FROM PEACE PACT

(Continued from First Page.)
upon to enforce any of the terms are
the execution rather than the rule. It
is not only possible for the committee
to treat them separately, but the diffi-
culty will be to treat them together.
Senator Fall pointed out a number
of specific cases in which commissions
to be formed by the principal allied
and associated powers, rather than
the league, are to carry out the terms
of the treaty. For example, the dis-
mantling of the German war fortifica-
tions is left to a commission, as is the es-
tablishment of Danzig as a free city.
The task of the league is left to the
rights of individual nations is left to
another commission, and the control
and title of the overseas colonies of
the Germans are to be vested in an-
other commission, not in the league of
nations.

As to Czechoslovakians.
"All questions relating to the Czechoslo-
vakian nation are to be settled by a
treaty between that nation and the
allied and associated powers," Senator
Fall pointed out. The reparations com-
mission is another organization which
will have important duties to perform
and with which the league of nations
will have nothing to do.

By reason of his study of the treaty
Senator Fall is strongly inclined to
propose a resolution similar to the
Knox resolution which will strike from
the treaty all references to the league
of nations and substitute the words
"international joint military commission,"
wherever the words "league of nations"
occur.

The Republican members of the
Foreign Relations Committee intend
to hold several conferences before the
committee meets Monday morning at
10:30. It is their plan to agree upon
a definite program of action on the
treaty and to submit this program to
the committee as soon as it assembles.
Within forty-eight hours, it is believed,
it will be definitely settled just what
line of procedure the Republicans will
follow in their attack upon the league
provisions.

REAL FIGHT ON DRY BILL DRIES MONDAY

(Continued from First Page.)
Beer is not intoxicating," said Sen-
ator Sterling, of South Dakota.
"Yes," the witness said, "and if I
am given the opportunity I will prove
it."

Endangers Amendment.
"You will endanger, if not defeat,
the constitutional amendment," said
Mr. Undermyer. "If you fix the limit at
one-half of 1 per cent, such a provi-
sion would circumvent and destroy its
validity."

One-half of 1 per cent alcohol, Mr.
Undermyer declared, is less than that
generated from an ordinary meal
without liquor.
Reiterating that he did not believe
Congress had the right to denature
alcoholic beverages of intoxicating
liquors, Mr. Undermyer said the act
would be a "voluntary provision."
"If you can define it at one-half of
1 per cent, another Congress could fix
it at 10 or 20 per cent," he added.
Mr. Undermyer said that with peace
signed, the military forces being de-
mobilized, troops with the enemy re-
opened and other peace conditions re-
stored, the war-time law was "false
pretense."

"I don't believe any court will per-
mit the farce," he added. "I am not at
all fearful of what will happen to this
war-time law in the courts. Congress
puts this extension bill on the statutes."

Duke Shakes Snake Into Wakefulness

European Aristocrat Startles
Onlookers When He
Grabs Sleeping Reptile.

WASHINGTON, July 12.—Duke De-
Jasmich, such member of the Impe-
rial Abyssinian delegation now visit-
ing this country, picked up the huge
Anaconda in the Washington zoo today
and calmly shook the sleeping reptile
into consciousness. Onlookers gasped
at the feat of daring.

At the time the delegation was visit-
ing the zoo where specimens of the
wild beasts which were sent to former
President Roosevelt from Abyssinia by
Emperor Menelik II. are quartered.
They had passed before the cage of
the Anaconda, which was asleep.
One of the party expressed a desire
to see the snake move and the duke
grasped it with a stick, but it dozed
on. When further proddings failed to
disturb it Duke Nado thrust his hand
into the cage and taking the reptile
by the throat shook it until it quivered
and squirmed into wakefulness. Then
he quietly tossed it to the far end of
the cage.

His act gave the party a thrill, but
the duke's modest department indi-
cated that snake charming is no new
novelty to him.

ISSUES TRADE LICENSES

British Board Takes Preliminary Action
in View of Resuming
German Relations.

(By Associated Press.)
LONDON, July 12.—With a view to
raising the blockade, the Board of
Trade has issued general licenses under
trading with the enemy legislation,
authorizing, with certain reservations,
the resumption of trade with Germany
and Austria.

The licenses do not remove the exist-
ing restrictions upon the payment of
debts and the return of property due or
deliverable to persons in Germany and
Austria, with respect to pre-war
transactions.

ITALIANS REQUESTS MORE PRIVILEGES IN FAR EAST

Sends Note to Peace Council of Five
Seeking Concessions at
Tientsin, China.

(By Associated Press.)
PARIS, July 12.—The Italian delega-
tion has sent a note to the peace con-
ference asking that Italy be given a
concession at Tientsin, China, it be-
came known today.

The Italian request was placed on
the program for the afternoon meet-
ing of the council of five.
Other matters which the council con-
sidered include certain reports in con-
nection with the question of trade
with Bolshevik Russia.
The representatives of the allies in
Vienna have decided that action must
be taken against the proceedings of
Hungary according to the Neues Tag-
blatt of Vienna, as quoted in a dis-
patch from the Austrian capital.

A special courier has been sent to
Paris to obtain the necessary powers
from the allied supreme council, the
newspaper declared.
At yesterday's session of the supreme
council the advisability of combined
military action against the Hungarian
communist forces which have been at-
tacking Czechoslovakia and Austria
was discussed with Marshal Foch and
representatives of the Czechs and Jugos-
lavs.

Decision on the question, it was
stated, would be deferred until the
mentioned made known to what extent
they were ready to take part in mil-
itary operations against the Bela Kun
forces.

Arthur J. Balfour, the British For-
eign Secretary, was in conference with
Premier Clemenceau at the latter's
office this morning. Mr. Balfour now
is the British representative on the
allied council, after which Premier
Clemenceau presides.

Troops Guard Assault.

DUBLIN, GA., July 12.—After being
relieved during the day by sheriff
deputies the home guards were return-
ing to duty at the jail tonight to pre-
vent possible mob violence to Robert
Green, a negro accused of killing
George Green, a white man. There
has been no disorder. The negro was
wounded before being captured and is
not expected to live.

NEW YORK, July 12.—This is the
year for decorations and Mrs. Fred
Myer, of the Bronx, is in style. She
has been decorated, but doesn't value
her decorations for service. She was
decorated by her husband for serving
eggs. She had him in the police court
today, charged with wife beating.
Myer explained to Magistrate McGee-
han that he beat his wife because
she served him "nuthin'" but eggs.
eggs, eggs, I'm sick of 'em."

"My husband earns \$15 a week. I
give him four eggs every morning,"
said Mrs. Myer. "But, I also have
other things. My husband beats me
regularly. He is a German and he
tells me before he starts to that wife
beating is a German custom."
"Beats you for serving four eggs,
and on a \$15 salary," exclaimed the
judge. "Why, he ought to give you
a decoration."

"He does, your honor, every time,"
said Mrs. Myer. "That's why I'm
here."

A Simple Way of Getting Rid of Mosquitoes

WHILE agreeable and pleasant to
humans, the odor of Preventol is
highly distasteful to the mosquito, so
much so that mosquitoes will vanish
from a room which has been sprayed
with Preventol, and will remain out of
it long after the odor has become im-
perceptible to a human being.

PREVENTOL MAKES A CLEAN HOME

is absolutely fatal to mosquitoes. When sprayed
on your garbage can, on pools of water, and in
damp and dark corners around the house, Pre-
ventol will kill the mosquito in its breeding place.
To rid a room of mosquitoes for the night, open
a window and spray the room with Preventol
just before retiring. Any mosquitoes in the
room will fly out at once, and the room will be
free of the pests for the rest of the night.

Preventol has a clean, pleasant odor that
lingers only for a few moments. Will not stain
fabrics or woodwork, and is non-injurious to
human beings.

Sold in pint, quart and gallon tins by druggists,
grocers, feed stores, hardware dealers and
department stores.

Preventol Does Many Other Useful Things

Kills Insects Preventol is in-
stant death to
roaches, water bugs, bed bugs and
all insects. Sprayed into cracks
and crevices, Preventol draws the
insects into the odor, where they
die. If used regularly as a sani-
tary measure, insects will never
again appear.

Kills Moths Sprayed on rugs,
furs, and clothes
in storage, Preventol will ab-
solutely kill moths, and prevent
the appearance of moths. Not
injurious to the finest fabrics.
Preventol is used by the largest
fur houses and fur houses to
keep moths out of rugs and furs
in storage.

Kills Germs Preventol is used
regularly for dis-
infection in hospitals. When
sprayed about a sickroom, it will
thoroughly disinfect the room,
and in a most agreeable manner.
Most effectively used in prevent-
ing the spread of influenza in the
home. Ideal as a germicide in
schools, banks and public build-
ings. Its pleasant odor makes it
the most agreeable disinfectant.

Kills Flies When sprayed on
garbage cans, in
damp corners, on refuse heaps,
Preventol will surely kill the fly
in its breeding place. If sprayed
in a room with open windows, Pre-
ventol will drive the flies out.
Preventol dispenses of the fly
problem in a most satisfactory
manner.

Kills Mosquitoes If spray-
ed in damp
corners and on stagnant pools,
Preventol will absolutely prevent
the breeding of mosquitoes. When
sprayed about a room with open
windows, Preventol will drive out
the mosquitoes and keep them
out for hours. Use Preventol in
your bed room just before bed-
time, to rid yourself of mosquito
trouble.

Kills Fleas For pet animals,
Preventol will kill
fleas in a quick and pleasant way.
Spray cats and dogs, with very
light spray, and watch fleas fall
off. Only a very light spraying
is necessary.

Kills Lice On the farm, Pre-
ventol has a wide
variety of effective uses. Sprayed
lightly on poultry, hogs, cows and
horses, Preventol instantly kills
all forms of lice. Cows sprayed
lightly with Preventol will be
free of ticks for hours afterwards.

Preventol is non-
explosive and non-
injurious to humans,
agreeable to the smell,
and non-injurious to
fabrics of any kind.
